ANTLR 1989-2004 Developed by Terence Parr Partially supported by  
University of

San Francisco & jGuru.com

We reserve no legal rights to the ANTLR--it is fully in the public  
domain. An

individual or company may do whatever they wish with source code  
distributed with

ANTLR or the code generated by ANTLR, including the incorporation of  
ANTLR, or

its output, into commercial software.

We encourage users to develop software with ANTLR. However, we do ask  
that credit

is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR

or incorporate any source code into one of your programs (commercial product,

research project, or otherwise) that you acknowledge this fact somewhere in the

documentation, research report, etc... If you like ANTLR and have developed a

nice tool with the output, please mention that you developed it using ANTLR. In

addition, we ask that the headers remain intact in our source code. As long as

these guidelines are kept, we expect to continue enhancing this system and expect

to make other tools available as they are completed.

Academic Free License v2.1

(json-schema 0.4.0, json-schema 0.4.0+~7.0.9, json-schema-webjar 0.4.0)

Academic Free License

=====

v. 2.1

-----

This Academic Free License (the "License") applies to any original work of

authorship (the "Original Work") whose owner (the "Licensor") has placed the

following notice immediately following the copyright notice for the Original

Work:

Licensed under the Academic Free License version 2.1

1) Grant of Copyright License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license to do the following:

- \* to reproduce the Original Work in copies;
- \* to prepare derivative works ("Derivative Works") based upon the Original Work;
- \* to distribute copies of the Original Work and Derivative Works to the public;
- \* to perform the Original Work publicly; and
- \* to display the Original Work publicly.

2) Grant of Patent License. Licensor hereby grants You a world-wide, royalty-free, non-exclusive, perpetual, sublicenseable license, under patent

claims owned or controlled by the Licensor that are embodied in the Original Work

as furnished by the Licensor, to make, use, sell and offer for sale the Original

Work and Derivative Works.

3) Grant of Source Code License. The term "Source Code" means the preferred form

of the Original Work for making modifications to it and all available documentation describing how to modify the Original Work. Licensor hereby agrees

to provide a machine-readable copy of the Source Code of the Original Work along

with each copy of the Original Work that Licensor distributes. Licensor reserves

the right to satisfy this obligation by placing a machine-readable copy of the

Source Code in an information repository reasonably calculated to permit inexpensive and convenient access by You for as long as Licensor continues to

distribute the Original Work, and by publishing the address of that information

repository in a notice immediately following the copyright notice that applies to

the Original Work.

4) Exclusions From License Grant. Neither the names of Licensor, nor the names of

any contributors to the Original Work, nor any of their trademarks or service

marks, may be used to endorse or promote products derived from this Original Work

without express prior written permission of the Licensor. Nothing in this License

shall be deemed to grant any rights to trademarks, copyrights, patents, trade

secrets or any other intellectual property of Licensor except as expressly stated

herein. No patent license is granted to make, use, sell or offer to sell

embodiments of any patent claims other than the licensed claims defined in

Section 2. No right is granted to the trademarks of Licensor even if such marks

are included in the Original Work. Nothing in this License shall be interpreted

to prohibit Licensor from licensing under different terms from this License any

Original Work that Licensor otherwise would have a right to license.

5) This section intentionally omitted.

6) Attribution Rights. You must retain, in the Source Code of any Derivative

Works that You create, all copyright, patent or trademark notices from the Source

Code of the Original Work, as well as any notices of licensing and any descriptive text identified therein as an "Attribution Notice." You must cause

the Source Code for any Derivative Works that You create to carry a prominent

Attribution Notice reasonably calculated to inform recipients that You have

modified the Original Work.

7) Warranty of Provenance and Disclaimer of Warranty. Licensor warrants that the

copyright in and to the Original Work and the patent rights granted herein by

Licensor are owned by the Licensor or are sublicensed to You under the terms of

this License with the permission of the contributor(s) of those copyrights and

patent rights. Except as expressly stated in the immediately proceeding sentence,

the Original Work is provided under this License on an "AS IS" BASIS and WITHOUT

WARRANTY, either express or implied, including, without limitation, the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A PARTICULAR

PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH YOU. This

DISCLAIMER OF WARRANTY constitutes an essential part of this License. No license

to Original Work is granted hereunder except under this disclaimer.

8) Limitation of Liability. Under no circumstances and under no legal theory,

whether in tort (including negligence), contract, or otherwise, shall the Licensor be liable to any person for any direct, indirect, special, incidental,

or consequential damages of any character arising as a result of this License or

the use of the Original Work including, without limitation, damages for loss of

goodwill, work stoppage, computer failure or malfunction, or any and all other

commercial damages or losses. This limitation of liability shall not apply to

liability for death or personal injury resulting from Licensor's negligence to

the extent applicable law prohibits such limitation. Some jurisdictions do not

allow the exclusion or limitation of incidental or consequential damages, so this

exclusion and limitation may not apply to You.

9) Acceptance and Termination. If You distribute copies of the Original Work or a

Derivative Work, You must make a reasonable effort under the circumstances to

obtain the express assent of recipients to the terms of this License. Nothing

else but this License (or another written agreement between Licensor and You)

grants You permission to create Derivative Works based upon the Original Work or

to exercise any of the rights granted in Section 1 herein, and any attempt to do

so except under the terms of this License (or another written agreement between

Licensor and You) is expressly prohibited by U.S. copyright law, the equivalent

laws of other countries, and by international treaty. Therefore, by exercising

any of the rights granted to You in Section 1 herein, You indicate Your acceptance of this License and all of its terms and conditions.

10) Termination for Patent Action. This License shall terminate automatically and

You may no longer exercise any of the rights granted to You by this License as of

the date You commence an action, including a cross-claim or counterclaim, against

Licensor or any licensee alleging that the Original Work infringes a patent. This

termination provision shall not apply for an action alleging patent infringement

by combinations of the Original Work with other software or hardware.

11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this

License may be brought only in the courts of a jurisdiction wherein the Licensor

resides or in which Licensor conducts its primary business, and under the laws of

that jurisdiction excluding its conflict-of-law provisions. The application of

the United Nations Convention on Contracts for the International Sale of Goods is

expressly excluded. Any use of the Original Work outside the scope of this

License or after its termination shall be subject to the requirements and

penalties of the U.S. Copyright Act, 17 U.S.C. 101 et seq., the equivalent laws

of other countries, and international treaty. This section shall survive the

termination of this License.

12) Attorneys Fees. In any action to enforce the terms of this License or seeking

damages relating thereto, the prevailing party shall be entitled to recover its

costs and expenses, including, without limitation, reasonable attorneys' fees and

costs incurred in connection with such action, including any appeal of such

action. This section shall survive the termination of this License.

13) Miscellaneous. This License represents the complete agreement concerning the

subject matter hereof. If any provision of this License is held to be

unenforceable, such provision shall be reformed only to the extent necessary to

make it enforceable.

14) Definition of "You" in This License. "You" throughout this License, whether

in upper or lower case, means an individual or a legal entity exercising rights

under, and complying with all of the terms of, this License. For legal entities,

"You" includes any entity that controls, is controlled by, or is under common

control with you. For purposes of this definition, "control" means (i) the power,

direct or indirect, to cause the direction or management of such entity, whether

by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the

outstanding shares, or (iii) beneficial ownership of such entity.

15) Right to Use. You may use the Original Work in all ways not otherwise restricted or conditioned by this License or by law, and Licensor promises not to interfere with or be responsible for such uses by You.

This formulation of W3C's notice and license became active on December 31 2002. This

version removes the copyright ownership notice such that this license can be used with

materials other than those owned by the W3C, moves information on style sheets, DTDs, and

schemas to the Copyright FAQ, reflects that ERCIM is now a host of the W3C, includes

references to this specific dated version of the license, and removes the ambiguous grant of

"use". See the older formulation for the policy prior to this date. Please see our Copyright FAQ

for common questions about using materials from our site, such as the translating or

annotating specifications. Other questions about this notice can be directed to sitepolicy@

Jason Hunter

From <http://www.servlets.com/cos/license.html> 4/11/2002

Servlets.com I com.oreilly.servlet license

Copyright (C) 2001 by Jason Hunter <jhunter@servlets.com>.

All rights reserved.

The source code, object code, and documentation in the com.oreilly.servlet package is

copyright and owned by Jason Hunter.

Feel free to use the `com.oreilly.servlet` package in the development of any non-commercial

project. For this use you are granted a non-exclusive, non-transferable limited license at no

cost. (Yep, free.)

If you are interested in using the package to benefit a commercial project, you are granted the

same license, provided that every person on the development team for that project owns a

copy of the book *Java Servlet Programming* (O'Reilly) in its most recent edition. The most

recent edition is currently the 2nd Edition, available in association with Amazon.com at:

<http://www.amazon.com/exec/obidos/ASIN/0596000405/jasonhunter>.

Redistribution of the `com.oreilly.servlet` package is permitted provided that the following

conditions are met:

1. You redistribute the package in object code form only (as Java `.class` files or a `.jar` file

containing the `.class` files) and only as part of a product that uses the classes as part of its

primary functionality.

2. You reproduce the above copyright notice, this list of conditions, and the following

disclaimer in the documentation and/or other materials provided with the distribution.

To clarify, you may use the `com.oreilly.servlet` package to build new software and may

distribute the package in object code form as part of this software. You may NOT distribute the

package as part of a software development kit, other library, or development tool without

consent of the copyright holder. Any modified form of the `com.oreilly.servlet` package is

bound by these same restrictions. (I don't want multiple versions making the rounds.)

Other sometimes cheaper license terms are available upon request; please write to

[jhunter@servlets.com](mailto:jhunter@servlets.com) for more information.

Note that the `com.oreilly.servlet` package is provided "as is" and the author will not be liable

for any damages suffered as a result of your use. (You won't sue me.) Furthermore, you

understand the package comes without any technical support.

You can always find the latest version of the `com.oreilly.servlet` package at

<http://www.servlets.com>.

Calling this script install-sh is preferred over install.sh, to prevent `make' implicit rules from

creating a file called install from it when there is no Makefile.

This script is compatible with the BSD install script, but was written from scratch. It can only

install one file at a time, a restriction shared with many OS's install programs.

The license and distribution terms for any publically available version or derivative of this code

cannot be changed. i.e. this code cannot simply be copied and put under another distribution

The reason behind this being stated in this direct manner is past experience in code simply

being copied and the attribution removed from it and then being distributed as part of other

packages. This implementation was a non-trivial and unpaid effort.

ANTLR 2 License

We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or

company may do whatever they wish with source code distributed with ANTLR or the code

generated by ANTLR, including the incorporation of ANTLR, or its output,  
into commercial

software.

We encourage users to develop software with ANTLR. However, we do ask  
that credit is given

to us for developing ANTLR. By "credit", we mean that if you use ANTLR or  
incorporate any

source code into one of your programs (commercial product, research  
project, or otherwise)

that you acknowledge this fact somewhere in the documentation, research  
report, etc... If you

like ANTLR and have developed a nice tool with the output, please mention  
that you

developed it using ANTLR. In addition, we ask that the headers remain  
intact in our source

code. As long as these guidelines are kept, we expect to continue  
enhancing this system and

expect to make other tools available as they are completed.

This source code was modified by Martin Hedenfalk <mhe@stacken.kth.se>  
for

use in Curl. His latest changes were done 2000-09-18.

It has since been patched away like a madman by Daniel Stenberg

make

it not use globals, pollute name space and more. This source code awaits  
a

rewrite to work around the paragraph 2 in the BSD licenses as explained

Lucian Wischik

The Readme file contains the following information:

Callstack, map2dbg

-----

(c) 2000-2002 Lucian Wischik

These two programs let you print a callstack from your debug routines  
in C++Builder programs. This is helpful for diagnosing bugs and crashes.  
This makes remote debugging easier (when a client a thousand kilometers  
away experiences erratic crashes in your program). The programs also  
allow the standard DrWatson utility to extract more information about  
your program after a crash.

Technically, their main contribution is to bring MS-compatible debug

files to Borland-generated executables, and to show you how you can manipulate this information in your own code.

The files and their source code are completely free. You may do with them what you wish. However, if you make any useful changes, please let me know so I can incorporate them in future releases!

The stackwalk routines owe a great deal to Felix Kasza's stackwalk example code at <http://www.mvps.org/win32/misc/stackwalk.html>

He has a wide range of other example code there. Visit his site! You will benefit greatly! The DBG-writing routines owe a lot to Matt Pietrik's "Under the Hood" article in the March1999 Microsoft Systems Journal, at <http://msdn.microsoft.com/library/periodic/period99/hood0399.htm>

PCRE is a library of functions to support regular expressions whose  
syntax and semantics are as

close as possible to those of the Perl 5 language.

Release 7 of PCRE is distributed under the terms of the "BSD" licence, as  
specified below. The

documentation for PCRE, supplied in the "doc"

directory, is distributed under the same terms as the software itself.

The basic library functions are written in C and are freestanding. Also  
included in the

distribution is a set of C++ wrapper functions.

IMPORTANT - READ BEFORE COPYING, INSTALLING OR USING.

Do not copy, install, or use the Materials provided under this license agreement

("Agreement"), until you have carefully read the following terms and conditions.

By copying, installing, or otherwise using the Materials, you agree to be bound by the terms of

this Agreement. If you do not agree to the terms of this Agreement, do not copy, install, or use

the Materials.

End User License Agreement for the Intel(R) Software Development Products

1. LICENSE DEFINITIONS:

A. "Materials" are defined as the software, documentation, license key codes and other

materials, including any updates and upgrade thereto, that are provided to you under this

Agreement. Materials also include the Redistributables, Cluster OpenMP Library, and Sample

Source as defined below.

B. "Redistributables" are the files listed in the following text files that may be included in the

Materials for the applicable Intel Software Development Product:  
clredist.txt, credist.txt,

fredist.txt, redist.txt.

C. Cluster OpenMP Library, is comprised of the files listed in the clredist.txt file specified

above, is the Intel(R) Cluster OpenMP\* Library add-on option to the Intel(R) C++ Compiler for

Linux\* and Intel(R) Fortran Compiler for Linux\* products (Intel Compiler for Linux). The use

of the Cluster OpenMP Library is conditioned on having a valid license from Intel for the

Cluster OpenMP Library and for either Intel Compiler for Linux, and further is governed by the

terms and conditions of the license agreement for applicable the Intel Compiler for Linux.

D. Source Code is defined as the Materials provided in human readable format, whether

unmodified or modified by you.

E. "Sample Source" is the Source Code file(s) that: (i) demonstrate certain limited functions

included in the binary libraries of the Intel(R) Integrated Performance Primitives (Intel(R)

IPPs); (ii) are identified as Intel IPP sample source code; (iii) are obtained separately from

Intel after you register your copy of the Intel Integrated Performance Primitives product with

Intel; and (iv) are subject to all of the terms and conditions of this Agreement.

F. Microsoft Platforms means any current and future Microsoft operating system products,

Microsoft run-time technologies (such as the .NET Framework), and Microsoft application

platforms (such as Microsoft Office or Microsoft Dynamics) that Microsoft offers.

## 2. LICENSE GRANT:

A. Subject to all of the terms and conditions of this Agreement, Intel Corporation ("Intel")

grants to you a non-exclusive, non-assignable, copyright license to use the Materials.

B. Subject to all of the terms and conditions of this Agreement, Intel grants to you a nonexclusive,

non-assignable copyright license to modify the Materials, or any portions thereof,

that are (i) provided in Source Code form or, (ii) are defined as Redistributables and are

provided in text form.

C. Subject to all of the terms and conditions of this Agreement and any specific restrictions

which may appear in the Redistributables text files, Intel grants to you a non-exclusive, nonassignable,

fully paid copyright license to distribute (except if you received the Materials under

an Evaluation License as specified below) the Redistributables, including any modifications

pursuant to Section 2.B, or any portions thereof, as part of the product or application you

developed using the Materials. If such application is a software development library, then

attribution, as specified in the product release notes of the corresponding Materials, shall be

displayed prominently in that applications product documentation and on the applications

product web site.

### 3. LICENSE RESTRICTIONS:

A. If you receive your first copy of the Materials electronically, and a second copy on media,

then you may use the second copy only in accordance with your applicable license stated in

this Agreement, or for backup or archival purposes. You may not provide the second copy to

another user.

B. You may NOT: (i) use or copy the Materials except as provided in this Agreement; (ii) rent

or lease the Materials to any third party; (iii) assign this Agreement or transfer the Materials

without the express written consent of Intel; (iv) modify, adapt, or translate the Materials in

whole or in part except as provided in this Agreement; (v) reverse engineer, decompile, or

disassemble the Materials; (vi) attempt to modify or tamper with the normal function of a

license manager that regulates usage of the Materials; (vii) distribute, sublicense or transfer the

Source Code form of any components of the Materials, Redistributables and Sample Source

and derivatives thereof to any third party except as provided in this Agreement; (viii) distribute

Redistributables except as part of a larger program that adds significant primary functionality

different from that of the Redistributables; (ix) distribute the Redistributables to run on a

platform other than a Microsoft Platform if per the accompanying user documentation the

Materials are meant to execute only on the Microsoft Platforms; (x) include the

Redistributables in malicious, deceptive, or unlawful programs; or (xi) modify or distribute the

Source Code of any Redistributable so that any part of it becomes subject to an Excluded

License. An Excluded License is one that requires, as a condition of use, modification, or

distribution, that (a) the code be disclosed or distributed in source code form; or (b) others

have the right to modify it.

C. The scope and duration (time period) of your license depends on the type of license you

obtained from Intel. The variety of license types are set forth below, which may not be

available for all "Intel(R) Software Development Products" and therefore may not apply to the

Materials. For more information on the types of licenses, please contact Intel or your sales

representative.

i. PRE-RELEASE LICENSE: If you are using the Materials under the control of a pre-release

license, (a) the Materials are pre-release code (e.g., beta release, etc), which may not be fully

functional and which Intel may substantially modify in producing any commercial version, and

which Intel can provide no assurance that it will ever produce or make generally available a

commercial version, and (b) you as an individual may use the Materials only for the term of

the pre-release time period, which is specified elsewhere in the Materials, or upon the

commercial release of the Materials. You may install copies of the Materials on an unlimited

number of computers provided that you are the only individual using the Materials and only

one copy of the Materials is in use at any one time. A separate license is required for each

additional use and/or individual user in all other cases. If you are an entity, Intel grants you the

right to designate one individual within your organization to have the sole right to use the

Materials in the manner provided above.

ii. EVALUATION LICENSE: If you are using the Materials under the control of an Evaluation

license, you as an individual may use the Materials only for internal evaluation purposes and

only for the term of the evaluation time period, which may be controlled by the license key

code for the Materials. NOTWITHSTANDING ANYTHING TO THE CONTRARY ELSEWHERE IN

THIS AGREEMENT, YOU MAY NOT DISTRIBUTE ANY PORTION OF THE MATERIALS, AND

THE APPLICATION AND/OR PRODUCT DEVELOPED BY YOU MAY ONLY BE USED FOR

EVALUATION PURPOSES AND ONLY FOR THE TERM OF THE EVALUATION PERIOD.

You may install copies of the Materials on a reasonable number of computers to conduct your

evaluation provided that you are the only individual using the Materials and only one copy of

the Materials is in use at any one time. A separate license is required for each additional use

and/or individual user in all other cases. Intel may provide you with a license code key that

enables the Materials for an Evaluation license. If you are an entity, Intel grants you the right to

designate one individual within your organization to have the sole right to use the Materials in

the manner provided above.

iii. NONCOMMERCIAL-USE LICENSE: If you are using the Materials under the control of a

Noncommercial-Use license, you as an individual may use the Materials only for non-business

use where you receive no fee, salary or any other form of compensation. The Materials may

not November 2010 be used for any other purpose, whether "for profit" or "not for profit." Any

work performed or produced as a result of use of the Materials cannot be performed or

produced for the benefit of other parties for a fee, compensation or any other reimbursement

or remuneration. You may install copies of the Materials on an unlimited number of

computers provided that you are the only individual using the Materials and only one copy of

the Materials is in use at any one time. A separate license is required for each additional use

and/or individual user in all other cases. Intel will provide you with a license code key that

enables the Materials for a Noncommercial- Use license. If you obtained a time-limited

Noncommercial-Use license, the duration (time period) of your license and your ability to use

the Materials is limited to the time period of the obtained license, which is controlled by the

license key code for the Materials. If you are an entity, Intel grants you the right to designate

one individual within your organization to have the sole right to use the Materials in the

manner provided above.

iv. SINGLE-USER LICENSE: If you are using the Materials under the control of a Single-User

license, you as an individual may install and use the Materials on an unlimited number of

computers provided that you are the only individual using the Materials and only one copy of

the Materials is in use at any one time. A separate license is required for each additional use

and/or individual user in all other cases. Intel will provide you with a license code key that

enables the Materials for a Single-User license. If you obtained a time-limited Single-User

license, the duration (time period) of your license and your ability to use the Materials is

limited to the time period of the obtained license, which is controlled by the license key code

for the Materials. If you are an entity, Intel grants you the right to designate one individual

within your organization to have the sole right to use the Materials in the manner provided

above.

v. NODE-LOCKED LICENSE: If you are using the Materials under the control of a Node-Locked

license, you may use the Materials only on a single designated computer by no more than the

authorized number of concurrent users. A separate license is required for each additional

concurrent user and/or computer in all other cases. Intel will provide you with a license code

key that enables the Materials for a Node-Locked license up to the authorized number of

concurrent users. If you obtained a time-limited Node-Locked license, the duration (time

period) of your license and your ability to use the Materials is limited to the time period of the

obtained license, which is controlled by the license key code for the Materials.

vi. FLOATING LICENSE: If you are using the Materials under the control of a Floating license,

you may (a) install the Materials on an unlimited number of computers that are connected to

the designated network and (b) use the Material by no more than the authorized number of

concurrent users. A separate license is required for each additional concurrent user and/or

network on which the Materials are used. Intel will provide you with a license code key that

enables the Materials for a Floating license up to the authorized number of concurrent users. If

you obtained a time-limited Floating license, the duration (time period) of your license and

your ability to use the Materials is limited to the time period of the obtained license, which is

controlled by the license key code for the Materials. Intel Library Floating License: If the

Materials are the Intel(R) Math Kernel Library or the Intel(R) Integrated Performance

Primitives Library or the Intel(R) Threading Building Blocks (either "Intel Library"), then the

Intel Library is provided to you as an add-on option to either the Intel(R) C++ Compiler

product or the Intel(R) Fortran Compiler product (either "Intel Compiler") for which you have

a Floating license, and as such, in addition to the terms and conditions above, the Intel Library

may only be used by the authorized concurrent users of that Intel Compiler Floating license.

D. DISTRIBUTION: Distribution of the Redistributables is also subject to the following

limitations: You

(i) shall be solely responsible to your customers for any update or support obligation or other

liability which may arise from the distribution, (ii) shall not make any statement that your

product is "certified", or that its performance is guaranteed, by Intel,  
(iii) shall not use Intel's

name or trademarks to market your product without written permission,  
(iv) shall use a license

agreement that prohibits disassembly and reverse engineering of the  
Redistributables, (v) shall

indemnify, hold harmless, and defend Intel and its suppliers from and  
against any claims or

lawsuits, including attorney's fees, that arise or result from your  
distribution of any product.

November 2010

E. Intel(R) Integrated Performance Primitives (Intel IPP). The following  
terms and conditions

apply only to the Intel IPP.

i. Notwithstanding anything in this Agreement to the contrary, if you  
implement the Sample

Sources in your application or if you use Intel IPP to implement  
algorithms that are protected

by others licenses then you may need additional licenses from various  
entities. Should any

such additional licenses be required, you are solely responsible for  
obtaining any such licenses

and agree to obtain any such licenses at your own expense.

ii. Notwithstanding anything herein to the contrary, a valid license to  
Intel IPP is a prerequisite

to any license for Sample Source, and possession of Sample Source does  
not grant any license

to Intel IPP (or any portion thereof). To access Sample Source, you must  
first register your

licensed copy of the Intel IPP with Intel. By downloading, installing or  
copying any Sample

Source file, you agree to be bound by terms of this Agreement.

F. SOFTWARE TRANSFER: You may permanently transfer the Materials and all  
of your rights

under this Agreement to another party (Recipient) only if you notify  
Intel of the transfer by

sending a letter to Intel certifying that you retain no copies of the  
Materials and that the

Recipient has agreed in writing to be bound by all of the terms and conditions of this

Agreement. Please send such letter to:

Intel Corporation

2111 NE 25th Avenue

Hillsboro, OR 97124

Attn: DPD Contracts Management, JF1-15

4. COPYRIGHT: Title to the Materials and all copies thereof remain with Intel or its suppliers.

The Materials are copyrighted and are protected by United States copyright laws and

international treaty provisions. You will not remove any copyright notice from the Materials.

You agree to prevent any unauthorized copying of the Materials. Except as expressly provided

herein, no license or right is granted to you directly or by implication, inducement, estoppel or

otherwise, specifically Intel does not grant any express or implied right to you under Intel

patents, copyrights, trademarks, or trade secret information.

5. NO WARRANTY AND LIMITED REPLACEMENT: THE MATERIALS AND INFORMATION ARE PROVIDED "AS IS" WITH NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT

LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS, OR ANY WARRANTY OTHERWISE ARISING OUT OF ANY PROPOSAL, SPECIFICATION, OR

SAMPLE. If the media on which the Materials are furnished are found to be defective in

material or workmanship under normal use for a period of ninety (90) days from the date of

receipt, Intel's entire liability and your exclusive remedy shall be the replacement of the media.

This offer is void if the media defect results from accident, abuse, or misapplication.

6. LIMITATION OF LIABILITY: THE ABOVE REPLACEMENT PROVISION IS THE ONLY

WARRANTY OF ANY KIND. INTEL OFFERS NO OTHER WARRANTY EITHER EXPRESS OR IMPLIED INCLUDING THOSE OF MERCHANTABILITY, NON-INFRINGEMENT OF THIRDPARTY INTELLECTUAL PROPERTY OR FITNESS FOR A PARTICULAR PURPOSE. NEITHER INTEL NOR ITS SUPPLIERS SHALL BE LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, DAMAGES FOR LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, LOSS OF BUSINESS INFORMATION, OR OTHER LOSS) ARISING

OUT OF THE USE OF OR INABILITY TO USE THE SOFTWARE, EVEN IF INTEL HAS BEEN

ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. BECAUSE SOME JURISDICTIONS PROHIBIT THE EXCLUSION OR LIMITATION OF LIABILITY FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES, THE ABOVE LIMITATION MAY NOT APPLY TO YOU.

7. UNAUTHORIZED USE: THE MATERIALS ARE NOT DESIGNED, INTENDED, OR

AUTHORIZED FOR USE IN ANY TYPE OF SYSTEM OR APPLICATION IN WHICH THE FAILURE

OF THE MATERIALS COULD CREATE A SITUATION WHERE PERSONAL INJURY OR DEATH

MAY OCCUR November 2010 (E.G MEDICAL SYSTEMS, LIFE SUSTAINING OR LIFE SAVING

SYSTEMS). Should the buyer purchase or use the Materials for any such unintended or

unauthorized use, the buyer shall indemnify and hold Intel and its officers, subsidiaries and

affiliates harmless against all claims, costs, damages, and expenses, and reasonable attorney

fees arising out of, directly or indirectly, any claim of product liability, personal injury or death

associated with such unintended or unauthorized use, even if such

claim alleges that Intel was negligent regarding the design or manufacture of the part.

8. USER SUBMISSIONS: You agree that any material, information or other communication you

transmit or post to an Intel website or provide to Intel under this Agreement related to the

features, functions, performance or use of the Materials will be considered non-confidential

and non-proprietary ("Communications"). Intel will have no obligations with respect to the

Communications. You hereby grant to Intel a non-exclusive, perpetual, irrevocable, royaltyfree,

copyright license to copy, modify, create derivative works, publicly display, disclose,

distribute, license and sublicense through multiple tiers of distribution and licensees,

incorporate and otherwise use the Communications and all data, images, sounds, text, and

other things embodied therein, including derivative works thereto, for any and all commercial

or non-commercial purposes. You are prohibited from posting or transmitting to or from an

Intel website or provide to Intel any unlawful, threatening, libelous, defamatory, obscene,

pornographic, or other material that would violate any law. If you wish to provide Intel with

your confidential information, Intel requires a non-disclosure agreement (NDA) to receive

such confidential information, so please contact your Intel representative to ensure the proper

NDA is in place.

9. CONSENT. You agree that Intel, its subsidiaries or suppliers may collect and use technical

and related information, including but not limited to technical information about your

computer, system and application software, and peripherals, that is gathered periodically to

facilitate the provision of software updates, product support and other services to you (if any)

related to the Materials, and to verify compliance with the terms of this Agreement. Intel may

use this information, as long as it is in a form that does not personally identify you, to improve

our products or to provide services or technologies to you.

10. TERMINATION OF THIS LICENSE: This Agreement becomes effective on the date you

accept this Agreement and will continue until terminated as provided for in this Agreement. If

you are using the Materials under the control of a time-limited license, for example an

Evaluation License, this Agreement terminates without notice on the last day of the time

period, which is specified elsewhere in the Materials, and/or controlled by the license key code

for the Materials. Intel may terminate this license immediately if you are in breach of any of its

terms and conditions and such breach is not cured within thirty (30) days of written notice

from Intel. Upon termination, you will immediately return to Intel or destroy the Materials and

all copies thereof. Any distribution of the Redistributables conducted in accordance with the

terms and conditions of this Agreement shall survive termination of this Agreement.

11. U.S. GOVERNMENT RESTRICTED RIGHTS: The technical data and computer software

covered by this license is a Commercial Item, as such term is defined by the FAR 2.101 (48

C.F.R. 2.101) and is commercial computer software and commercial computer software

documentation as specified under FAR 12.212 (48 C.F.R. 12.212) or DFARS 227.7202 (48 C.F.R.

227.7202), as applicable. This commercial computer software and related documentation is

provided to end users for use by and on behalf of the U.S. Government, with only those rights

as are granted to all other end users pursuant to the terms and conditions herein. Use for or on

behalf of the U.S. Government is permitted only if the party acquiring or using this software is

properly authorized by an appropriate U.S. Government official. This use by or for the U.S.

Government clause is in lieu of, and supersedes, any other FAR, DFARS, or other provision that

addresses Government rights in the computer software or documentation covered by this

license. All copyright licenses granted to the U.S. Government are coextensive with the

technical data and computer software licenses granted herein. The U.S. Government shall only

have the right to reproduce, distribute, perform, display, and prepare derivative works as

needed to implement those rights.

## 12. GENERAL PROVISIONS

A. ENTIRE AGREEMENT: This Agreement is intended to be the entire agreement between you

and Intel with respect to matters contained herein, and supersedes all prior or

contemporaneous agreements and negotiations with respect to those matters. No waiver of

any breach or default shall constitute a waiver of any subsequent breach or default. If any

provision of this Agreement is determined by a court to be unenforceable, you and Intel will

deem the provision to be modified to the extent necessary to allow it to be enforced to the

extent permitted by law, or if it cannot be modified, the provision will be severed and deleted

from this Agreement, and the remainder of the

Agreement will continue in effect. Any change, modification or waiver to this Agreement must

be in writing and signed by an authorized representative of you and Intel.

B. APPLICABLE LAWS: Any claim arising under or relating to this Agreement shall be

governed by the internal substantive laws of the State of Delaware, without regard to

principles of conflict of laws. You agree that the terms of the United Nations Convention on

Contracts for the Sale of Goods do not apply to this Agreement. You agree that your

distribution and export/re-export of the Software and permitted modifications shall be in

compliance with the laws, regulations, orders or other restrictions of applicable export laws.

13. THIRD PARTY PROGRAMS. The Materials may include third party programs or materials.

The license terms with those programs or materials apply to your use of them, and Intel is not

liable for them.

Copyright (c) 2010, Google Corporation.

This Font Software is licensed under the SIL Open Font License, Version 1.1.

This license is copied below, and is also available with a FAQ at:

<http://scripts.sil.org/OFL>

-----  
SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007  
-----

#### PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

#### DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software.

#### PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding

Copyright Holder. This restriction only applies to the primary font name as presented to the users.

- 4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written

permission.

5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

#### TERMINATION

This license becomes null and void if any of the above conditions are not met.

#### DISCLAIMER

THE FONT SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT OF COPYRIGHT, PATENT, TRADEMARK, OR OTHER RIGHT. IN NO EVENT SHALL THE COPYRIGHT HOLDER BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, INCLUDING ANY GENERAL, SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF THE USE OR INABILITY TO USE THE FONT SOFTWARE OR FROM OTHER DEALINGS IN THE FONT SOFTWARE.

The BSD 2-Clause License

The following is a BSD 2-Clause license template. To generate your own license, change the

values of OWNER, ORGANIZATION and YEAR from their original values as given here, and

substitute your own.

Note: see also the BSD-3-Clause license.

This prelude is not part of the license.

<OWNER> = Regents of the University of California

<ORGANIZATION> = University of California, Berkeley

<YEAR> = 1998

In the original BSD license, both occurrences of the phrase "COPYRIGHT HOLDERS AND

CONTRIBUTORS" in the disclaimer read "REGENTS AND CONTRIBUTORS".

Here is the license template:

Additional IP Rights Grant (Patents)

"This implementation" means the copyrightable works distributed by Google as part of the WebRTC code package.

Google hereby grants to you a perpetual, worldwide, non-exclusive, no-charge, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, transfer, and otherwise run, modify and propagate the contents of this implementation of the WebRTC code package, where such license applies only to those patent claims, both currently owned by Google and acquired in the future, licensable by Google that are necessarily infringed by this implementation of the WebRTC code package. This grant does not include claims that would be infringed only as a consequence of further modification of this implementation. If you or your agent or exclusive licensee institute or order or agree to the institution of patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that this implementation of the WebRTC code package or any code incorporated within this implementation of the WebRTC code package constitutes direct or contributory patent infringement, or inducement of patent infringement, then any patent rights granted to you under this License for this implementation of the WebRTC code package shall terminate as of the date such litigation is filed.

Creative Commons Corporation

CREATIVE COMMONS CORPORATION IS NOT A LAW FIRM AND DOES NOT PROVIDE LEGAL SERVICES. DISTRIBUTION OF THIS LICENCE DOES NOT CREATE AN ATTORNEYCLIENT

RELATIONSHIP. CREATIVE COMMONS PROVIDES THIS INFORMATION ON AN "ASIS" BASIS. CREATIVE COMMONS MAKES NO WARRANTIES REGARDING THE INFORMATION PROVIDED, AND DISCLAIMS LIABILITY FOR DAMAGES RESULTING FROM ITS USE.

Licence

THE WORK (AS DEFINED BELOW) IS PROVIDED UNDER THE TERMS OF THIS CREATIVE COMMONS PUBLIC LICENCE ("CCPL" OR "LICENCE"). THE WORK IS PROTECTED BY COPYRIGHT AND/OR OTHER APPLICABLE LAW. ANY USE OF THE WORK OTHER THAN AS AUTHORIZED UNDER THIS LICENCE OR COPYRIGHT LAW IS PROHIBITED. BY EXERCISING

ANY RIGHTS TO THE WORK PROVIDED HERE, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS LICENCE. THE LICENSOR GRANTS YOU THE RIGHTS CONTAINED HERE

IN CONSIDERATION OF YOUR ACCEPTANCE OF SUCH TERMS AND CONDITIONS.

This Creative Commons England and Wales Public Licence enables You (all capitalised terms

defined below) to view, edit, modify, translate and distribute Works worldwide, provided that

You credit the Original Author.

'The Licensor' [one or more legally recognised persons or entities offering the Work under the

terms and conditions of this Licence]

and

'You'

agree as follows:

## 1. Definitions

a. "Attribution" means acknowledging all the parties who have contributed to and have rights

in the Work, Derivative Work or Collective Work under this Licence.

b. "Collective Work" means the Work in its entirety in unmodified form along with a number of

other separate and independent works, assembled into a collective whole.

c. "Derivative Work" means any work created by the editing, modification, adaptation or

translation of the Work in any media (however a work that constitutes a Collective Work will

not be considered a Derivative Work for the purpose of this Licence). For the avoidance of

doubt, where the Work is a musical composition or sound recording, the synchronization of

the Work in timed-relation with a moving image ("synching") will be considered a Derivative

Work for the purpose of this Licence.

d. "Licence" means this Creative Commons England and Wales Public Licence agreement.

e. "Original Author" means the individual (or entity) who created the Work.

f. "Work" means the work protected by copyright which is offered under the terms of this

Licence.

g. For the purpose of this Licence, when not inconsistent with the context, words in the singular

number include the plural number.

## 2. Licence Terms

2.1 The Licensor hereby grants to You a worldwide, royalty-free, non-exclusive, Licence for use

and for the duration of copyright in the Work.

You may:

copy the Work;

create one or more Derivative Works;

incorporate the Work into one or more Collective Works;

copy Derivative Works or the Work as incorporated in any Collective Work;  
and

publish, distribute, archive, perform or otherwise disseminate the Work,  
Derivative Works or

the Work as incorporated in any Collective Work, to the public in any  
material form in any

media whether now known or hereafter created.

HOWEVER,

You must not:

impose any terms on the use to be made of the Work, the Derivative Work  
or the Work as

incorporated in a Collective Work that alter or restrict the terms of  
this Licence or any rights

granted under it or has the effect or intent of restricting the ability  
to exercise those rights;

impose any digital rights management technology on the Work, the  
Derivative Work or the

Work as incorporated in a Collective Work that alters or restricts the  
terms of this Licence or

any rights granted under it or has the effect or intent of restricting  
the ability to exercise those

rights;

sublicense the Work;

subject the Work to any derogatory treatment as defined in the Copyright,  
Designs and

Patents Act 1988.

FINALLY,

You must:

make reference to this Licence (by Uniform Resource Identifier (URI),  
spoken word or as

appropriate to the media used) on all copies of the Work and Derivative Works and Collective

Works published, distributed, performed or otherwise disseminated or made available to the

public by You;

recognise the Licensor's / Original Author's right of attribution in any Work, Derivative Work

and Collective Work that You publish, distribute, perform or otherwise disseminate to the

public and ensure that You credit the Licensor / Original Author as appropriate to the media

used; and

to the extent reasonably practicable, keep intact all notices that refer to this Licence, in

particular the URI, if any, that the Licensor specifies to be associated with the Work, unless

such URI does not refer to the copyright notice or licensing information for the Work.

Additional Provisions for third parties making use of the Work

## 2.2. Further licence from the Licensor

Each time You publish, distribute, perform or otherwise disseminate

the Work; or

any Derivative Work; or

the Work as incorporated in a Collective Work

the Licensor agrees to offer to the relevant third party making use of the Work (in any of the

alternatives set out above) a licence to use the Work on the same terms and conditions as

granted to You hereunder.

2.3. This Licence does not affect any rights that the User may have under any applicable law,

including fair use, fair dealing or any other legally recognised limitation or exception to

copyright infringement.

2.4. All rights not expressly granted by the Licensor are hereby reserved, including but not

limited to, the exclusive right to collect, whether individually or via a licensing body, such as a

collecting society, royalties for any use of the Work.

### 3. Warranties and Disclaimer

Except as required by law, the Work or any Derivative Work is licensed by the Licensor on an

"as is" and "as available" basis and without any warranty of any kind, either express or implied.

### 4. Limit of Liability

Subject to any liability which may not be excluded or limited by law the Licensor shall not be

liable and hereby expressly excludes all liability for loss or damage howsoever and whenever

caused to You.

### 5. Termination

The rights granted to You under this Licence shall terminate automatically upon any breach by

You of the terms of this Licence. Individuals or entities who have received Derivative Works or

Collective Works from You under this Licence, however, will not have their Licences

terminated provided such individuals or entities remain in full compliance with those Licences.

### 6. General

6.1. The validity or enforceability of the remaining terms of this agreement is not affected by

the holding of any provision of it to be invalid or unenforceable.

6.2. This Licence constitutes the entire Licence Agreement between the parties with respect to

the Work licensed here. There are no understandings, agreements or representations with

respect to the Work not specified here. The Licensor shall not be bound by any additional

provisions that may appear in any communication in any form.

6.3. A person who is not a party to this Licence shall have no rights under the Contracts (Rights

of Third Parties) Act 1999 to enforce any of its terms.

6.4. This Licence shall be governed by the law of England and Wales and the parties

irrevocably submit to the exclusive jurisdiction of the Courts of England and Wales.

## 7. On the role of Creative Commons

7.1. Neither the Licensor nor the User may use the Creative Commons logo except to indicate

that the Work is licensed under a Creative Commons Licence. Any permitted use has to be in

compliance with the Creative Commons trade mark usage guidelines at the time of use of the

Creative Commons trade mark. These guidelines may be found on the Creative Commons

website or be otherwise available upon request from time to time.

7.2. Creative Commons Corporation does not profit financially from its role in providing this

Licence and will not investigate the claims of any Licensor or user of the Licence.

7.3. One of the conditions that Creative Commons Corporation requires of the Licensor and

You is an acknowledgement of its limited role and agreement by all who use the Licence that

the Corporation is not responsible to anyone for the statements and actions of You or the

Licensor or anyone else attempting to use or using this Licence.

7.4. Creative Commons Corporation is not a party to this Licence, and makes no warranty

whatsoever in connection to the Work or in connection to the Licence, and in all events is not

liable for any loss or damage resulting from the Licensor's or Your reliance on this Licence or

on its enforceability.

7.5. USE OF THIS LICENCE MEANS THAT YOU AND THE LICENSOR EACH ACCEPTS THESE

CONDITIONS IN SECTION 7.1, 7.2, 7.3, 7.4 AND EACH ACKNOWLEDGES CREATIVE COMMONS CORPORATION'S VERY LIMITED ROLE AS A FACILITATOR OF THE LICENCE FROM THE LICENSOR TO YOU.

Creative Commons is not a party to this Licence, and makes no warranty whatsoever in

connection with the Work. Creative Commons will not be liable to You or any party on any

legal theory for any damages whatsoever, including without limitation any general, special,

incidental or consequential damages arising in connection to this licence. Notwithstanding the

foregoing two (2) sentences, if Creative Commons has expressly identified itself as the Licensor

hereunder, it shall have all rights and obligations of Licensor.

Except for the limited purpose of indicating to the public that the Work is licensed under the

CCPL, neither party will use the trademark "Creative Commons" or any related trademark or

logo of Creative Commons without the prior written consent of Creative Commons. Any

permitted use will be in compliance with Creative Commons' then-current trademark usage

guidelines, as may be published on its website or otherwise made available upon request from

time to time.

Creative Commons may be contacted at <http://creativecommons.org/>.

W3C Document License Status:

This document license was applied to documents published by W3C before 1 January 2015. On

1 February 2015 W3C adopted a more permissive document license and applied the new

license to all W3C documents that had previously been made available under this license.

License

By using and/or copying this document, or the W3C document from which this statement is

linked, you (the licensee) agree that you have read, understood, and will comply with the

following terms and conditions:

Permission to copy, and distribute the contents of this document, or the W3C document from

which this statement is linked, in any medium for any purpose and without fee or royalty is

hereby granted, provided that you include the following on ALL copies of the document, or

portions thereof, that you use:

A link or URL to the original W3C document.

The pre-existing copyright notice of the original author, or if it doesn't exist, a notice

(hypertext is preferred, but a textual representation is permitted) of the form: "Copyright

[\$date-of-document] World Wide Web Consortium, (MIT, ERCIM, Keio, Beihang). All Rights

Reserved. <http://www.w3.org/Consortium/Legal/2002/copyright-documents-20021231>"

If it exists, the STATUS of the W3C document.

When space permits, inclusion of the full text of this NOTICE should be provided. We request

that authorship attribution be provided in any software, documents, or other items or products

that you create pursuant to the implementation of the contents of this document, or any

portion thereof.

No right to create modifications or derivatives of W3C documents is granted pursuant to this

license. However, if additional requirements (documented in the Copyright FAQ) are satisfied,

the right to create modifications or derivatives is sometimes granted by the W3C to individuals

complying with those requirements.

Disclaimers

THIS DOCUMENT IS PROVIDED "AS IS," AND COPYRIGHT HOLDERS MAKE NO REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE,

NON-INFRINGEMENT, OR TITLE; THAT THE CONTENTS OF THE DOCUMENT ARE SUITABLE

FOR ANY PURPOSE; NOR THAT THE IMPLEMENTATION OF SUCH CONTENTS WILL NOT

INFRINGE ANY THIRD PARTY PATENTS, COPYRIGHTS, TRADEMARKS OR OTHER RIGHTS.

COPYRIGHT HOLDERS WILL NOT BE LIABLE FOR ANY DIRECT, INDIRECT, SPECIAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF ANY USE OF THE DOCUMENT OR THE PERFORMANCE OR IMPLEMENTATION OF THE CONTENTS THEREOF.

The name and trademarks of copyright holders may NOT be used in advertising or publicity

pertaining to this document or its contents without specific, written prior permission. Title to

copyright in this document will at all times remain with copyright holders.

Notes

This version: <http://www.w3.org/Consortium/Legal/2002/copyright-documents-20021231>

This formulation of W3C's notice and license became active on December 31 2002. This

version removes the copyright ownership notice such that this license can be used with

materials other than those owned by the W3C, moves information on style sheets, DTDs, and

schemas to the Copyright FAQ, reflects that ERCIM is now a host of the W3C, includes

references to this specific dated version of the license, and removes the ambiguous grant of

"use". See the older formulation for the policy prior to this date. Please see our Copyright FAQ

for common questions about using materials from our site, such as the translating or

annotating specifications.

PCRE2 LICENCE

-----

PCRE2 is a library of functions to support regular expressions whose syntax

and semantics are as close as possible to those of the Perl 5 language.

Release 10 of PCRE2 is distributed under the terms of the "BSD" licence, as

specified below. The documentation for PCRE2, supplied in the "doc"

directory, is distributed under the same terms as the software itself. The data

in the testdata directory is not copyrighted and is in the public domain.

The basic library functions are written in C and are freestanding. Also

included in the distribution is a just-in-time compiler that can be used to

optimize pattern matching. This is an optional feature that can be omitted when

the library is built.

Ping Identity Corporation

UnboundID SCIM 2.0 CLIENT SDK Free Use License

THIS IS AN AGREEMENT BETWEEN YOU ("YOU") AND PING IDENTITY CORPORATION  
("PING IDENTITY") REGARDING YOUR USE OF UNBOUNDID SCIM 2.0 SDK FOR JAVA  
AND

ANY

ASSOCIATED DOCUMENTATION, OBJECT CODE, COMPILED LIBRARIES, SOURCE CODE  
AND

SOURCE FILES OR OTHER MATERIALS MADE AVAILABLE BY PING IDENTITY

(COLLECTIVELY

REFERRED TO IN THIS AGREEMENT AS THE ("SDK").

BY INSTALLING, ACCESSING OR OTHERWISE USING THE SDK, YOU ACCEPT THE TERMS  
OF

THIS AGREEMENT. IF YOU DO NOT AGREE TO THE TERMS OF THIS AGREEMENT, DO NOT

INSTALL, ACCESS OR USE THE SDK.

USE OF THE SDK. Subject to your compliance with this Agreement, Ping Identity

grants to You a non-exclusive, royalty-free license, under Ping Identity's

intellectual property rights in the SDK, to use, reproduce, modify and distribute this release of the SDK; provided that no license is granted herein

under any patents that may be infringed by your modifications, derivative works

or by other works in which the SDK may be incorporated (collectively, your

"Applications"). You may reproduce and redistribute the SDK with your

Applications provided that you (i) include this license file and an

unmodified copy of the 3RD\_PARTY\_LICENSES.txt file; and (ii) such

redistribution is subject to a license whose terms do not conflict with or

contradict the terms of this Agreement. You may also reproduce and redistribute

the SDK without your Applications provided that you redistribute the SDK

complete and unmodified (i.e., with all "read me" files, copyright notices, and

other legal notices and terms that Ping Identity has included in the SDK).

SCOPE OF LICENSES. This Agreement does not grant You the right to use any Ping

Identity intellectual property which is not included as part of the SDK. The

SDK is licensed, not sold. This Agreement only gives You some rights to use

the SDK. Ping Identity reserves all other rights. Unless applicable law gives

You more rights despite this limitation, You may use the SDK only as expressly

permitted in this Agreement.

SUPPORT. Ping Identity is not obligated to provide any technical or other support ("Support Services") for the SDK to You under this Agreement. However,

if Ping Identity chooses to provide any Support Services to You, Your use of

such Support Services will be governed by then-current Ping Identity support

policies.

TERMINATION. Ping Identity reserves the right to discontinue offering the SDK

and to modify the SDK at any time in its sole discretion. Notwithstanding anything contained in this Agreement to the contrary, Ping Identity may also,

in its sole discretion, terminate or suspend access to the SDK to You or any

end user at any time. In addition, if you fail to comply with the terms of

this Agreement, then any rights granted herein will be automatically terminated

if such failure is not corrected within 30 days of the initial notification of

such failure. You acknowledge that termination and/or monetary damages may not

be a sufficient remedy if You breach this Agreement and that Ping Identity will

be entitled, without waiving any other rights or remedies, to injunctive or

equitable relief as may be deemed proper by a court of competent jurisdiction

in the event of a breach. Ping Identity may also terminate this Agreement if

the SDK becomes, or in Ping Identity's reasonable opinion is likely to become,

the subject of a claim of intellectual property infringement or trade secret

misappropriation. All rights and licenses granted herein will simultaneously

and automatically terminate upon termination of this Agreement for any reason.

DISCLAIMER OF WARRANTY. THE SDK IS PROVIDED "AS IS" AND PING IDENTITY DOES NOT

WARRANT THAT THE SDK WILL BE ERROR-FREE, VIRUS-FREE, WILL PERFORM IN AN UNINTERRUPTED, SECURE OR TIMELY MANNER, OR WILL INTEROPERATE WITH OTHER HARDWARE, SOFTWARE, SYSTEMS OR DATA. TO THE MAXIMUM EXTENT ALLOWED BY LAW, ALL

CONDITIONS, REPRESENTATIONS AND WARRANTIES, WHETHER EXPRESS, IMPLIED, STATUTORY

OR OTHERWISE INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE (EVEN IF PING IDENTITY HAD

BEEN INFORMED OF SUCH PURPOSE), OR NON-INFRINGEMENT OF THIRD PARTY RIGHTS ARE

HEREBY DISCLAIMED.

LIMITATION OF LIABILITY. IN NO EVENT WILL PING IDENTITY OR ITS SUPPLIERS BE

LIABLE FOR ANY DAMAGES WHATSOEVER (INCLUDING, WITHOUT LIMITATION, LOST PROFITS,

REVENUE, DATA OR DATA USE, BUSINESS INTERRUPTION, COST OF COVER, DIRECT, INDIRECT, SPECIAL, PUNITIVE, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND)

ARISING OUT OF THE USE OF OR INABILITY TO USE THE SDK OR IN ANY WAY RELATED TO

THIS AGREEMENT, EVEN IF PING IDENTITY HAS BEEN ADVISED OF THE POSSIBILITY OF

SUCH DAMAGES.

ADDITIONAL RIGHTS. Certain states do not allow the exclusion of implied warranties or limitation of liability for certain kinds of damages, so the

exclusion of limited warranties and limitation of liability set forth above may

not apply to You.

EXPORT RESTRICTIONS. The SDK is subject to United States export control laws.

You acknowledge and agree that You are responsible for compliance with all

domestic and international export laws and regulations that apply to the SDK.

MISCELLANEOUS. This Agreement constitutes the entire agreement with respect to

the SDK. If any provision of this Agreement shall be held to be invalid, illegal or unenforceable, the validity, legality and enforceability of the

remaining provisions shall in no way be affected or impaired thereby. This

Agreement and performance hereunder shall be governed by and construed in accordance with the laws of the State of Texas without regard to its conflict

of laws rules. Any disputes related to this Agreement shall be exclusively

litigated in the state or federal courts located in Travis County, Texas.

AEM Communities - Hunspell English US Dictionary

en\_US Hunspell Dictionary Version 2015.08.24

Mon Aug 24 16:39:36 2015 -0400 [79c892e]

<http://wordlist.sourceforge.net>

README file for English Hunspell dictionaries derived from SCOWL.

These dictionaries are created using the speller/make-hunspell-dict script in SCOWL.

The following dictionaries are available: en\_US (American)

en\_CA (Canadian)

en\_GB-ise (British with "ise" spelling) en\_GB-ize (British with "ize" spelling)

en\_US-large en\_CA-large

en\_GB-large (with both "ise" and "ize" spelling)

The normal (non-large) dictionaries correspond to SCOWL size 60 and, to encourage

consistent spelling, generally only include one spelling variant for a word. The large

dictionaries correspond to SCOWL size 70 and may include multiple spelling for a word when

both variants are considered almost equal. Also, the general quality of the larger dictionaries

may also be less as they are not as carefully checked for errors as the normal dictionaries.

To get an idea of the difference in size, here are 25 random words only found in the large

dictionary for American English:

Bermejo Freyr's Guenevere Hatshepsut Nottinghamshire arrestment  
crassitudes crural

dogwatches errorless fetal flaxseeds godroon incretion jalapeno's kelpie  
kishkes neuroglias

pietisms pullulation stemwinder stenoses syce thalassic zees

The en\_US and en\_CA are the official dictionaries for Hunspell. The en\_GB and large

dictionaries are made available on an experimental basis. If you find them useful please send

me a quick email at [kevina@gnu.org](mailto:kevina@gnu.org).

If none of these dictionaries suite you (for example, maybe you want the larger dictionary but

only use spelling of a word) additional dictionaries can be generated at

<http://app.aspell.net/create> or by modifying `speller/make-hunspell-dict` in SCOWL. Please do

let me know if you end up publishing a customized dictionary.

If a word is not found in the dictionary or a word is there you think shouldn't be, you can

lookup the word up at <http://app.aspell.net/lookup> to help determine why that is.

General comments on these list can be sent directly to me at [kevina@gnu.org](mailto:kevina@gnu.org) or to the

wordlist-devel mailing lists

(<https://lists.sourceforge.net/lists/listinfo/wordlist-devel>). If you

have specific issues with any of these dictionaries please file a bug report at

<https://github.com/kevina/wordlist/issues>.

IMPORTANT CHANGES FROM 2015.02.15:

The dictionaries are now in UTF-8 format instead of ISO-8859-1. This was required to handle

smart quotes correctly.

ADDITIONAL NOTES:

The NOSUGGEST flag was added to certain taboo words. While I made an honest attempt to

flag the strongest taboo words with the NOSUGGEST

flag, I MAKE NO GUARANTEE THAT I FLAGGED EVERY POSSIBLE TABOO WORD.

The list was originally derived from Nmeth Lszl, however I removed some words which,

while being considered taboo by some dictionaries, are not really considered swear words in

today's society.

COPYRIGHT, SOURCES, and CREDITS:

The English dictionaries come directly from SCOWL and is thus under the same copyright of

SCOWL. The affix file is a heavily modified version of the original english.aff file which was

released as part of Geoff Kuenning's Ispell and as such is covered by his BSD license. Part of

SCOWL is also based on Ispell thus the Ispell copyright is included with the SCOWL copyright.

The collective work is Copyright 2000-2015 by Kevin Atkinson as well as any of the copyrights

mentioned below:

Permission to use, copy, modify, distribute and sell these word lists, the associated scripts, the

output created from the scripts, and its documentation for any purpose is hereby granted

Atkinson makes no representations about the suitability of this array for any purpose. It is

provided "as is" without express or implied warranty.

Alan Beale <biljir@pobox.com> also deserves special credit as he has, in addition to providing

the 12Dicts package and being a major contributor to the ENABLE word list, given me an

incredible amount of feedback and created a number of special lists (those found in the

Supplement) in order to help improve the overall quality of SCOWL.

The 10 level includes the 1000 most common English words (according to the Moby (TM)

Words II [MWords] package), a subset of the 1000 most common words on the Internet (again,

according to Moby Words II), and frequently class 16 from Brian Kelk's "UK English Wordlist

with Frequency Classification".

The MWords package was explicitly placed in the public domain:

The Moby lexicon project is complete and has been placed into the public domain. Use, sell,

rework, excerpt and use in any way on any platform.

Placing this material on internal or public servers is also encouraged. The compiler is not

aware of any export restrictions so freely distribute world-wide.

You can verify the public domain status by contacting Grady Ward

3449 Martha Ct.

Arcata, CA 95521-4884

grady@netcom.com grady@northcoast.com

The "UK English Wordlist With Frequency Classification" is also in the Public Domain:

Date: Sat, 08 Jul 2000 20:27:21 +0100

From: Brian Kelk <Brian.Kelk@cl.cam.ac.uk>

> I was wondering what the copyright status of your "UK English  
> Wordlist With Frequency Classification" word list as it seems to  
> be lacking any copyright notice.

There were many many sources in total, but any text marked "copyright" was avoided. Locallywritten

documentation was one source. An earlier version of the list resided in a filespace

called PUBLIC on the University mainframe, because it was considered public domain.

Date: Tue, 11 Jul 2000 19:31:34 +0100

> So are you saying your word list is also in the public domain?

That is the intention.

The 20 level includes frequency classes 7-15 from Brian's word list.

The 35 level includes frequency classes 2-6 and words appearing in at least 11 of 12 dictionaries

as indicated in the 12Dicts package. All words from the 12Dicts package have had likely

inflections added via my inflection database.

The 12Dicts package and Supplement is in the Public Domain.

The WordNet database, which was used in the creation of the Inflections database, is under the

following copyright:

The 40 level includes words from Alan's 3esl list found in version 4.0 of his 12dicts package.

Like his other stuff the 3esl list is also in the public domain.

The 50 level includes Brian's frequency class 1, words appearing in at least 5 of 12 of the

dictionaries as indicated in the 12Dicts package, and uppercase words in at least 4 of the

previous 12 dictionaries. A decent number of proper names is also included: The top 1000

male, female, and Last names from the 1990 Census report; a list of names sent to me by Alan

Beale; and a few names that I added myself. Finally a small list of abbreviations not commonly

found in other word lists is included.

The name files from the Census report is a government document which I don't think can be

copyrighted.

The file special-jargon.50 uses common.lst and word.lst from the "Unofficial Jargon File Word

Lists" which is derived from "The Jargon File". All of which is in the Public Domain. This file also

contain a few extra UNIX terms which are found in the file "unix-terms" in the special/

directory.

The 55 level includes words from Alan's 2of4brif list found in version of his 12dicts package.

Like his other stuff the 2of4brif is also in the public domain.

The 60 level includes all words appearing in at least 2 of the 12 dictionaries as indicated by the

12Dicts package.

The 70 level includes Brian's frequency class 0 and the 74,550 common dictionary words from

the MWords package. The common dictionary words, like those from the 12Dicts package,

have had all likely inflections

added. The 70 level also included the 5desk list from version 4.0 of the 12Dics package which

is in the public domain.

The 80 level includes the ENABLE word list, all the lists in the

ENABLE supplement package (except for ABLE), the "UK Advanced Cryptics Dictionary"

(UKACD), the list of signature words from the YAWL package, and the 10,196 places list from

the MWords package.

The ENABLE package, mainted by M\Cooper <thegrendel@theriver.com>, is in the Public

Domain:

The ENABLE master word list, WORD.LST, is herewith formally released into the Public

Domain. Anyone is free to use it or distribute it in any manner they see fit. No fee or

registration is required for its use nor are "contributions" solicited (if you feel you absolutely

must contribute something for your own peace of mind, the authors of the ENABLE list ask

that you make a donation on their behalf to your favorite charity). This word list is our gift to

the Scrabble community, as an alternate to "official" word lists. Game designers may feel free

to incorporate the WORD.LST into their games. Please mention the source and credit us as

originators of the list. Note that if you, as a game designer, use the WORD.LST in your product,

you may still copyright and protect your product, but you may \*not\* legally copyright or in any

way restrict redistribution of the WORD.LST portion of your product. This \*may\* under law

restrict your rights to restrict your users' rights, but that is only fair.

UKACD, by J Ross Beresford <ross@bryson.demon.co.uk>, is under the following copyright:

Copyright (c) J Ross Beresford 1993-1999. All Rights Reserved. The following restriction is

placed on the use of this publication:

if The UK Advanced Cryptics Dictionary is used in a software package or redistributed in any

form, the copyright notice must be prominently displayed and the text of this document must

be included verbatim.

There are no other restrictions: I would like to see the list distributed as widely as possible.

The 95 level includes the 354,984 single words, 256,772 compound words, 4,946 female

names and the 3,897 male names, and 21,986 names from the MWords package, ABLE.LST

from the ENABLE Supplement, and some additional words found in my part-of-speech

database that were not found anywhere else.

Accent information was taken from UKACD.

My VARCON package was used to create the American, British, and Canadian word list.

Since the original word lists used in the VARCON package came from the Ispell distribution

they are under the Ispell copyright:

This formulation of W3C's notice and license became active on December 31 2002. This

version removes the copyright ownership notice such that this license can be used with

materials other than those owned by the W3C, reflects that ERCIM is now a host of the W3C,

includes references to this specific dated version of the license, and removes the ambiguous

grant of "use". Otherwise, this version is the same as the previous version and is written so as to

preserve the Free Software Foundation's assessment of GPL compatibility and OSI's

certification under the Open Source Definition. Please see our Copyright FAQ for common

questions about using materials from our site, including specific terms and conditions for

David Turner, Robert Wilhelm, Werner Lemberg

The FreeType Project LICENSE

-----

2000-Feb-08

Copyright 1996-2000 by

David Turner, Robert Wilhelm, and Werner Lemberg

Introduction

=====

The FreeType Project is distributed in several archive packages;  
some of them may contain, in addition to the FreeType font engine,  
various tools and contributions which rely on, or relate to, the  
FreeType Project.

This license applies to all files found in such packages, and  
which do not fall under their own explicit license. The license  
affects thus the FreeType font engine, the test programs,  
documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG  
(Independent JPEG Group) licenses, which all encourage inclusion  
and use of free software in commercial and freeware products  
alike. As a consequence, its main points are that:

- o We don't promise that this software works. However, we will be  
interested in any kind of bug reports. (`as is' distribution)

o You can use this software for whatever you want, in parts or full form, without having to pay us. ('royalty-free' usage)

o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. ('credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products. We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Legal Terms

=====

0. Definitions

-----

Throughout this license, the terms 'package', 'FreeType Project', and 'FreeType archive' refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the 'FreeType Project', be they named as alpha, beta or final release.

'You' refers to the licensee, or person using the project, where 'using' is a generic term including compiling the project's source code as well as linking it to form a 'program' or 'executable'.

This program is referred to as 'a program using the FreeType engine'.

This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive.

If you are unsure whether or not a particular file is covered by

this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

#### 1. No Warranty

-----

THE FREETYPE PROJECT IS PROVIDED `AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

#### 2. Redistribution

-----

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

- o Redistribution of source code must retain this license file (`LICENSE.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.

- o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the

FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

### 3. Advertising

-----

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: `FreeType Project', `FreeType Engine', `FreeType library', or `FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it. Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

### 4. Contacts

-----

There are two mailing lists related to FreeType:

- o [freetype@freetype.org](mailto:freetype@freetype.org)

Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you haven't found anything to help you in the documentation.

o devel@freetype.org

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

o <http://www.freetype.org>

Holds the current FreeType web page, which will allow you to download our latest development version and read online documentation.

You can also contact us individually at:

This formulation of W3C's notice and license became active on December 31  
2002. This

version removes the copyright ownership notice such that this license can  
be used with

materials other than those owned by the W3C, reflects that ERCIM is now a  
host of the W3C,

includes references to this specific dated version of the license, and  
removes the ambiguous

grant of "use". Otherwise, this version is the same as the previous  
version and is written so as to

preserve the Free Software Foundation's assessment of GPL compatibility  
and OSI's

certification under the Open Source Definition. Please see our Copyright  
FAQ for common

questions about using materials from our site, including specific terms  
and conditions for

Part of gif2png (the file 437\_l1.c) was generated by the `trans' program written by Kosta Kostis <kosta@live.robin.de>. The FreeType Project LICENSE

-----  
2006-Jan-27

Copyright 1996-2002, 2006 by

David Turner, Robert Wilhelm, and Werner Lemberg

Introduction

=====

The FreeType Project is distributed in several archive packages; some of them may contain, in addition to the FreeType font engine, various tools and contributions which rely on, or relate to, the

FreeType Project.

This license applies to all files found in such packages, and which do not fall under their own explicit license. The license affects thus the FreeType font engine, the test programs, documentation and makefiles, at the very least.

This license was inspired by the BSD, Artistic, and IJG (Independent JPEG Group) licenses, which all encourage inclusion and use of free software in commercial and freeware products alike. As a consequence, its main points are that:

- o We don't promise that this software works. However, we will be interested in any kind of bug reports. ('as is' distribution)
- o You can use this software for whatever you want, in parts or full form, without having to pay us. ('royalty-free' usage)
- o You may not pretend that you wrote this software. If you use it, or only parts of it, in a program, you must acknowledge somewhere in your documentation that you have used the FreeType code. ('credits')

We specifically permit and encourage the inclusion of this software, with or without modifications, in commercial products.

We disclaim all warranties covering The FreeType Project and assume no liability related to The FreeType Project.

Finally, many people asked us for a preferred form for a credit/disclaimer to use in compliance with this license. We thus encourage you to use the following text:

"""

Portions of this software are copyright <year> The FreeType Project ([www.freetype.org](http://www.freetype.org)). All rights reserved.

"""

Please replace <year> with the value from the FreeType version you

actually use.

Legal Terms

=====

## 0. Definitions

-----

Throughout this license, the terms `package`, `FreeType Project`, and `FreeType archive` refer to the set of files originally distributed by the authors (David Turner, Robert Wilhelm, and Werner Lemberg) as the `FreeType Project`, be they named as alpha, beta or final release.

`You' refers to the licensee, or person using the project, where `using' is a generic term including compiling the project's source code as well as linking it to form a `program' or `executable'.

This program is referred to as `a program using the FreeType engine'.

This license applies to all files distributed in the original FreeType Project, including all source code, binaries and documentation, unless otherwise stated in the file in its original, unmodified form as distributed in the original archive. If you are unsure whether or not a particular file is covered by this license, you must contact us to verify this.

The FreeType Project is copyright (C) 1996-2000 by David Turner, Robert Wilhelm, and Werner Lemberg. All rights reserved except as specified below.

## 1. No Warranty

-----

THE FREETYPE PROJECT IS PROVIDED `AS IS' WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR

PURPOSE. IN NO EVENT WILL ANY OF THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY DAMAGES CAUSED BY THE USE OR THE INABILITY TO USE, OF THE FREETYPE PROJECT.

## 2. Redistribution

-----

This license grants a worldwide, royalty-free, perpetual and irrevocable right and license to use, execute, perform, compile, display, copy, create derivative works of, distribute and sublicense the FreeType Project (in both source and object code forms) and derivative works thereof for any purpose; and to authorize others to exercise some or all of the rights granted herein, subject to the following conditions:

- o Redistribution of source code must retain this license file ('FTL.TXT') unaltered; any additions, deletions or changes to the original files must be clearly indicated in accompanying documentation. The copyright notices of the unaltered, original files must be preserved in all copies of source files.

- o Redistribution in binary form must provide a disclaimer that states that the software is based in part of the work of the FreeType Team, in the distribution documentation. We also encourage you to put an URL to the FreeType web page in your documentation, though this isn't mandatory.

These conditions apply to any software derived from or based on the FreeType Project, not just the unmodified files. If you use our work, you must acknowledge us. However, no fee need be paid to us.

## 3. Advertising

-----

Neither the FreeType authors and contributors nor you shall use the name of the other for commercial, advertising, or promotional purposes without specific prior written permission.

We suggest, but do not require, that you use one or more of the following phrases to refer to this software in your documentation or advertising materials: `FreeType Project', `FreeType Engine', `FreeType library', or `FreeType Distribution'.

As you have not signed this license, you are not required to accept it. However, as the FreeType Project is copyrighted material, only this license, or another one contracted with the authors, grants you the right to use, distribute, and modify it. Therefore, by using, distributing, or modifying the FreeType Project, you indicate that you understand and accept all the terms of this license.

#### 4. Contacts

-----

There are two mailing lists related to FreeType:

- o [freetype@nongnu.org](mailto:freetype@nongnu.org)

Discusses general use and applications of FreeType, as well as future and wanted additions to the library and distribution.

If you are looking for support, start in this list if you haven't found anything to help you in the documentation.

- o [freetype-devel@nongnu.org](mailto:freetype-devel@nongnu.org)

Discusses bugs, as well as engine internals, design issues, specific licenses, porting, etc.

Our home page can be found at

<http://www.freetype.org>

--- end of FTL.TXT ---

The FreeType 2 font engine is copyrighted work and cannot be used

legally without a software license. In order to make this project usable to a vast majority of developers, we distribute it under two mutually exclusive open-source licenses.

This means that \*you\* must choose \*one\* of the two licenses described below, then obey all its terms and conditions when using FreeType 2 in any of your projects or products.

- The FreeType License, found in the file `FTL.TXT`, which is similar to the original BSD license \*with\* an advertising clause that forces you to explicitly cite the FreeType project in your product's documentation. All details are in the license file. This license is suited to products which don't use the GNU General Public License.

- The GNU General Public License version 2, found in `GPL.TXT` (any later version can be used also), for programs which already use the GPL. Note that the FTL is incompatible with the GPL due to its advertisement clause.

The contributed PCF driver comes with a license similar to that of the X Window System. It is compatible to the above two licenses (see file `src/pcf/readme`).

## 1. Definitions.

License shall mean the terms and conditions for use, reproduction, and distribution as defined

by Sections 1 through 9 of this document.

Licensor shall mean the copyright owner or entity authorized by the copyright owner that is

granting the License.

Legal Entity shall mean the union of the acting entity and all other entities that control, are

controlled by, or are under common control with that entity. For the purposes of this

definition, control means (i) the power, direct or indirect, to cause the direction or

management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent

(50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

You (or Your) shall mean an individual or Legal Entity exercising permissions granted by this

License.

Source form shall mean the preferred form for making modifications, including but not limited

to software source code, documentation source, and configuration files.

Object form shall mean any form resulting from mechanical transformation or translation of a

Source form, including but not limited to compiled object code, generated documentation,

and conversions to other media types.

Work shall mean the work of authorship, whether in Source or Object form, made available

under the License, as indicated by a copyright notice that is included in or attached to the

work (an example is provided in the Appendix below).

Derivative Works shall mean any work, whether in Source or Object form, that is based on (or

derived from) the Work and for which the editorial revisions, annotations, elaborations, or

other modifications represent, as a whole, an original work of authorship. For the purposes of

this License, Derivative Works shall not include works that remain separable from, or merely

link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

Contribution shall mean any work of authorship, including the original version of the Work

and any modifications or additions to that Work or Derivative Works thereof, that is

intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an

individual or Legal Entity authorized to submit on behalf of the copyright owner. For the

purposes of this definition, submitted means any form of electronic, verbal, or written

communication intentionally sent to the Licensor by its copyright holder or its representatives,

including but not limited to communication on electronic mailing lists, source code control

systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the

purpose of discussing and improving the Work, but excluding communication that is

conspicuously marked or otherwise designated in writing by the copyright owner as Not a

Contribution.

Contributor shall mean Licensor and any individual or Legal Entity on behalf of whom a

Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each

Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royaltyfree,

irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display,

publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or

Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each

Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royaltyfree,

irrevocable patent license to make, have made, use, offer to sell, sell, import, and

otherwise transfer the Work, where such license applies only to those patent claims licensable

by such Contributor that are necessarily infringed by their Contribution(s) alone or by

combination of their Contribution(s) with the Work to which such Contribution(s) was

submitted. If You institute patent litigation against any entity (including a cross-claim or

counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the

Work constitutes direct or contributory patent infringement, then any patent licenses granted

to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works

thereof in any medium, with or without modifications, and in Source or Object form, provided

that You meet the following conditions:

You must give any other recipients of the Work or Derivative Works a copy of this License; and

You must cause any modified files to carry prominent notices stating that You changed the

files; and

You must retain, in the Source form of any Derivative Works that You distribute, all copyright,

patent, trademark, and attribution notices from the Source form of the Work, excluding those

notices that do not pertain to any part of the Derivative Works; and

If the Work includes a NOTICE text file as part of its distribution, then any Derivative Works

that You distribute must include a readable copy of the attribution notices contained within

such NOTICE file, excluding those notices that do not pertain to any part of the Derivative

Works, in at least one of the following places: within a NOTICE text file distributed as part of

the Derivative Works; within the Source form or documentation, if provided along with the

Derivative Works; or, within a display generated by the Derivative Works, if and wherever such

third-party notices normally appear. The contents of the NOTICE file are for informational

purposes only and do not modify the License. You may add Your own attribution notices

within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text

from the Work, provided that such additional attribution notices cannot be construed as

modifying the License.

You may add Your own copyright statement to Your modifications and may provide

additional or different license terms and conditions for use, reproduction, or distribution of

Your modifications, or for any such Derivative Works as a whole, provided Your use,

reproduction, and distribution of the Work otherwise complies with the conditions stated in

this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution

intentionally submitted for inclusion in the Work by You to the Licensor shall be under the

terms and conditions of this License, without any additional terms or conditions.

Notwithstanding the above, nothing herein shall supersede or modify the terms of any

separate license agreement you may have executed with Licensor regarding such

Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks,

service marks, or product names of the Licensor, except as required for reasonable and

customary use in describing the origin of the Work and reproducing the content of the NOTICE

file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor

provides the Work (and each Contributor provides its Contributions) on an AS IS BASIS,

WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including,

without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT,

MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible

for determining the appropriateness of using or redistributing the Work and assume any risks

associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including

negligence), contract, or otherwise, unless required by applicable law (such as deliberate and

grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for

damages, including any direct, indirect, special, incidental, or consequential damages of any

character arising as a result of this License or out of the use or inability to use the Work

(including but not limited to damages for loss of goodwill, work  
stoppage, computer failure or

malfunction, or any and all other commercial damages or losses), even if  
such Contributor has

been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the  
Work or Derivative

Works thereof, You may choose to offer, and charge a fee for, acceptance  
of support, warranty,

indemnity, or other liability obligations and/or rights consistent with  
this License. However, in

accepting such obligations, You may act only on Your own behalf and on  
Your sole

responsibility, not on behalf of any other Contributor, and only if You  
agree to indemnify,

defend, and hold each Contributor harmless for any liability incurred by,  
or claims asserted

against, such Contributor by reason of your accepting any such warranty  
or additional liability.
